

2022 Keystone Nationals Truck & Tractor Pull

Dear Puller(s):

This letter is to inform you of all necessary information for the Keystone Nationals Indoor Truck and Tractor Pull. We are excited to be back on the track at the Harrisburg Farm Show Complex. This event is Thursday March 17 - Saturday March 19, 2022. We are asking that all pullers for **Thursday night's session be in the building by 3:00pm Thursday**. We would like for all other pullers to be in the building by 3:00pm Friday; but if that is not possible, then you will need to be in the building by 9:00am on Saturday for Saturday morning event. **NO VEHICLES WILL BE BROUGHT INTO THE PITS WEDNESDAY EVENING.** Our staff would like to use Wednesday evening to set up and get their own equipment moved into place. There is enough pit space for all machinery to pit indoors.

PARKING

- **NO Hauler arrival on the grounds prior to 2PM Wednesday, March 11, 2020**
- There will be a **RESTRICTED HAULER ONLY PARKING** area.
- Our staff will be parking you, so we ask that everyone be courteous and park where you are directed.
- If you arrive before 8am or during the event competition hours there will be a hauler holding area upon entering the complex lots. Once our staff returns the next morning, they will be able to get your hauler parked and get you unloaded and into the building.
- **Haulers will not need a parking pass. All other transportation vehicles will need the enclosed parking pass to leave and reenter the Farm Show lots.**
- **We cannot/will not accommodate hauler parking for electrical hook up.** Please be prepared with your own power at your hauler if needed.
- There will also be RV parking available. Campers and/or personal vehicles **WILL NOT** be permitted to park in the Hauler Lot. There will be some electric hookups available for you to purchase in the Camping Lot. Please go to the Security Desk at the Farm Show Complex and they will assist you with hookup.

We have decided to have separate parking areas to alleviate haulers being blocked in on Saturday when they are ready to leave. So please be courteous to our volunteer staff who are working with you. **The complex has added curbing to the parking area. It may take some rearranging, PLEASE BE PATIENT AS WE GET IT ALL WORKED OUT.**

REGISTRATION

Once your hauler is parked, please find registration and let us know that you have arrived. **Registration is located in the pit building.** When you enter the pit building by the ramp, turn right and go all the way to the back corner. You will find registration there!

When you sign in, you will be given all information that you and your crew will need for the event. **Please remember that every puller gets something for pulling so please come pick up your winnings, no purse money will be mailed!**

PITTING & TECHING

Our staff will be available to assist you in getting your vehicles to and from your haulers. Upon entering the building, the vehicle will be weighed and then parked in its designated area. Vehicles will be lined up in the pit area by number. There will be day and night security to make sure all vehicles are safe inside the building. **Everyone will need to be out of the building two hours after the event has ended. No one can stay in the pits overnight.**

Draw bars will be checked before you hook to the sled. After pulling, the top 3 vehicles will be reweighed and weighed again going into the finals. **PLEASE KEEP SOMEONE AT YOUR VEHICLE UNTIL A TECH OFFICIAL HAS BEEN THERE AND HAS APPROVED THE VEHICLE TO PULL.**

We ask that you **fill your vehicle completely with fuel before entering the pit building. Tanks will be checked before crossing the scales.** There is to be no refueling in the building, and for those who need to refuel before pulling again, there will be a designated refueling area. **We will not be taking vehicles in and out of the pits several times. Once you are in, you will not be going back out.** If you make the finals, then you can go out once.

Be sure that all smoke pipes are fastened well. If your smoke pipe blows off, falls off, or any other circumstance during your pull, **YOU ARE AUTOMATICALLY DISQUALIFIED.** Also be sure that you check the keystone website for the specs so that you make sure your pipe will line up with the smoke tube.

All tractors will be lifted by the front tow hitch. Please be sure that your hitch is adequate enough to hold the weight of your vehicle. **PLEASE CHECK THE WEBSITE FOR HITCH SPECS TO BE SURE YOUR BACK HITCH IS THE CORRECT FOR THE SLED HOOK.**

No generators inside or directly outside of the pit building. We are sorry for any inconvenience that this may cause, but in order to use the facility in the future, we must follow the rules of the Pa Farm Show Complex. There is electric in the pits.

THERE WILL BE NO SUPPORT VEHICLES (GOLF CARTS, FOUR WHEELERS, ETC.) INSIDE THE BUILDINGS AT ALL. There will be a designated parking area outside the pit doors for them

Spectators will be allowed in the pits. Please be respectful and courteous to all spectators as they are wondering around the pit area.

SEATING

Driver and (1) Helper will get a hot pass. HOT PASSES ARE GOOD FOR THE WHOLE WEEKEND. These will get you anywhere you need to be. The hot pass is also good for General Admission Seating (ground level along each side of the track). If you prefer to watch the pull from the reserved seating (Blue Seats) you will need to purchase a ticket for reserved seating.

Any crew or family members with you will need to purchase a general admission or reserved seating ticket. If you purchased reserved seating, there is nothing more that you will need to get into the pits or track area, but you must be able to present reserved ticket upon request. See Keystone Nationals website for ticket information.

BEST OF SHOW

Please come early and check out the vendors, equipment and merchandise on display. Also, we will be having **BEST OF SHOW** judging again this year. Your vehicle will be judged on its appearance, so polish them up. All classes will be judged on Friday afternoon. See the enclosed agenda for times.

FOR THE FUTURE PULLERS

Pedal Pull

Our future pullers will also have a chance to get in on the pulling action. There will be information posted at the event on registration times and pull times! Come watch and support our future PULLERS!

The Keystone Nationals Committee thanks every one of the pullers for being a part of this event. This is a pull put on by pullers and volunteers. Please be courteous to all the staff, and if you have any questions or concerns, you can direct your calls to Cory Forrester at 1-717-729-5037 or email us at keystonenationalspull@gmail.com.

Thank You,

Keystone Nationals Committee
