

Choosing Your Reserved Seats on Mobile Device

For anyone that is using a cell phone or tablet or any other non desktop device that DOES NOT show the “ Or Select Your Own Seats” link, follow these instructions to view the desktop site:

- After you are on the website and the page to get your Reserved Seats, look to the RIGHT of your BROWSER bar, you will see 3 stacked dots (this should be all the in the top right side of your screen to the right of the web address box that shows the page you are on)
- Click those dots
- A drop down menu should appear
- Look for “DESKTOP SITE” or something worded similar and click on it

You will be redirected to the PC desktop version of the website and you should then see the link near that Best Available Seats box that says “CHOOSE YOUR OWN SEATS.”
